Ref. Form 8-K dated and filed July 24, 2003

On August 18, 2003 ALLETE announced that its wholly owned subsidiary, Florida Water Services Corporation (Florida Water), agreed to sell its water and wastewater system serving Deltona, Florida, to the city of Deltona for \$59.5 million. Florida Water expects to realize an after-tax gain of approximately \$20 million and to close on the sale by the end of the year pending satisfaction of certain contingencies and regulatory approvals in Florida. Deltona is one of Florida Water's larger systems serving 35,000 customers.

Deltona joined seven other Florida communities who have announced plans to purchase water and wastewater systems from Florida Water. Combined the eight systems represent about 70 percent of Florida Water's assets and serve 187,000 customers. The total amount of the sale of the eight systems, including Deltona, is \$356 million and represents an after-tax gain to Florida Water of about \$75 million. The cash proceeds after transaction costs, retirement of Florida Water debt and payment of income taxes are estimated at \$185 million, and will be used to retire debt at ALLETE. Florida Water continues to seek buyers for its remaining water and wastewater facilities. Systems for which governmental buyers are not found are expected to be sold to a private buyer.
